

KVK Training Programmes in October, 2023

A number of training programmes for farmers and farm women will be held during **October, 2023** by Directorate of Extension Education. The details of these programmes are given below. Please contact the respective Training Centre of PAU for more information.

KVK, AMRITSAR (98723-54170)
October 03-11: Mushroom cultivation and processing October 04: Operational skill training for Happy Seeder and Super Seeder October 09-17: Pig Farming October 10: Control of insect pests and diseases in peacrop October 11: Nutrient management in vegetable crops October 12: New production technologies for <i>rabi</i> crops October 13: Integrated Disease and Pest Management in <i>rabi</i> crops October 17: Nutrient management strategies, identification of deficiency symptoms in <i>rabi</i> crops and their remedial measures October 18: Improved agronomic practices for cultivation of celery October 19: Awareness on food safety and techniques to check food adulteration October 20: Management of repeat breeding in dairy animals October 23-30: Preparation of bakery and confectionary products
KVK, BATHINDA (0164-2215619)
October 03-11: Dairy Farming October 04: Rice residue management technologies for improving soil health October 05: Seed plot technique for raising disease free potato seed October 09-13: Beekeeping-a lucrative subsidiary occupation October 11: Integrated Pest and Disease Management in <i>rabi</i> crops October 12-13: Garment enrichment through different techniques October 18: Management of repeat breeding in dairy animal October 19: Climate change and its adverse effects October 20: Formation of farmer groups/FPOs/CIGs October 25-31: Protected cultivation of vegetable crops October 26-27: Nutritious recipes for young children and pregnant/lactating women October 30: Establishment of nutrition garden in urban and <i>peri</i> -urban area October 31: Management of rodents
KVK, FARIDKOT (01639-253142)
October 3-4: Improved cultivation practices of <i>rabi</i> cereals/oilseeds/pulse crops October 04: Seed treatment-a preventive measure for seed borne diseases October 05: Establishment of nutrition garden in urban and <i>peri</i> -urban areas including soil less model October 06: Diagnosis and management of nutrient deficiencies in <i>kharif</i> crops October 09-13: Bakery and Confectionary October 10: Integrated Nutrient Management in <i>rabi</i> crops October 11: Integrated Weed Management in <i>rabi</i> crops October 12: Nutritious recipes for young children and pregnant/lactating women October 16-20: Beekeeping-a lucrative subsidiary occupation October 17: Management of repeat breeding in dairy animals October 18: Small scale agro-industry-a way to become an entrepreneur October 19: Preparation of sweets at home in festive season October 20: Happy seeder technology for crop residue management
KVK, FATEHGARH SAHIB (01763-221217)
October 03-09: Protected cultivation of vegetables October 04: Management of anoestrus and repeat breeding in dairy animals October 05: Integrated weed management in <i>rabi</i> crops October 06: Improved cultivation practices for <i>Rabi</i> crops October 09-13: Beekeeping-a lucrative subsidiary occupation October 10: Post-harvest management/handling of fruits and vegetables October 11: Integrated Nutrient Management in <i>rabi</i> crops October 12: Improved cultivation of fruit crops October 13: Small scale agro-industry- a way to become an entrepreneur

October 16-20: Repair and maintenance of agricultural machinery
October 17: Protected cultivation and nursery raising techniques of vegetables
October 18: Cultivation of onion for bulb crop and seed production
October 26: Low cost nutritious recipes using seasonal ingredients
October 31: Methods to check milk adulteration

KVK, FERROZEPUR (Mallewal) (01632-279517)

October 05: Small scale agro-industry-a way to become an entrepreneur
October 09-13: Goat Farming
October 11: Seed treatment- a preventive measure for control of seed borne diseases
October 16-25: Mushroom cultivation and processing
October 17: Cultivation of *kinnow* and guava
October 19: Processing of milk at domestic level
October 26: Management of repeat breeding in dairy animals
October 27: Improved cultivation techniques of *rabi* crops

KVK, GURDASPUR (01874-220743)

October 03: Seed treatment- a preventive measure for seed – borne disease
October 04: Custom hiring of agricultural machinery
October 05: Preparation of compost from crop residue
October 06: Improved cultivation practices for *rabi*, oil seed and pulse crops
October 09-20: Preparation of household products/rural crafts/ decorative candles
October 10: Establishment of nutrition garden in urban and *peri*-urban areas
October 11: Feeding and management of poultry birds
October 12: Improved cultivation techniques of *rabi* crops
October 13: Improved protection practices in *rabi* crops
October 16-20: Quality seed production of field crops
October 17: Diagnosis and management of nutrient deficiencies in *rabi* crops
October 18: Preparation of nutritious sweets for different festivals at domestic level
October 19: Quality production of jaggery
October 23: Improved agronomic practices for cultivation of celery
October 25-31: Value addition of milk

KVK, HOSHIARPUR (Bahawal) (98157-51900)

October 03-09: Quality production of *gur/shakar*
October 04-10: Special cookery
October 05-11: Pig Farming
October 06-12: Special cookery
October 09-13: Beekeeping and processing and marketing of honey
October 10: Improved cultivation practices of *rabi* crops
October 11: Management of repeat breeding in dairy animals
October 12: Techniques to check food adulteration
October 13: Management of paddy residue by using different farm machinery
October 16-20: Quality production of *gur/shakar*
October 17: Cultivation of winter season vegetables
October 20: Special cookery
October 23: Establishment of nutrition garden in urban and *peri*-urban areas

KVK, JALANDHAR (Nurmahal) (01826-292053)

October 03: Green fodder production round the year
October 04: Seed plot technique for raising disease free potato seed
October 05: Soilless model for vegetable kitchen garden
October 06: Processing of eggs and milk at domestic level
October 09-13: Entrepreneurship development based on small scale farming
October 10: Insect-pest and disease management in *rabi* crops
October 11: Diagnosis and management of nutrient deficiencies in *rabi* crops
October 16-20: Technique of baking for millets
October 23: Silage making for dairy animals during lean period
October 25-31: Beekeeping - a lucrative subsidiary occupation
October 26: Improved cultivation techniques of *rabi* crops

<p>October 27: Seed treatment-a preventive measure for seed borne diseases</p> <p>October 31: Integrated Weed Management in <i>rabi</i> crops</p>
<p>KVK, KAPURTHALA (01822-233056)</p>
<p>October 03-11: Beekeeping-a lucrative subsidiary occupation</p> <p>October 04: Preventive/post-accident guidelines in agricultural operations</p> <p>October 05: Seed treatment – a preventive measure for seed-borne diseases</p> <p>October 06: Production technologies of root and leafy vegetable crops</p> <p>October 09-13: Protected cultivation of vegetable crops</p> <p>October 10: Farm machinery for crop residue management</p> <p>October 11: Improved cultivation techniques of <i>rabi</i> crops</p> <p>October 12: Improved cultivation practices of <i>rabi</i> cereals/ oilseeds/ pulse crops</p> <p>October 13: Seed plot technique for raising disease free potato seed</p> <p>October 16-20: Bakery and confectionery</p> <p>October 17: Value added products from millets</p> <p>October 18: Seed production of <i>rabi</i> onion</p> <p>October 26: Integrated Weed Management in <i>rabi</i> crops</p> <p>October 27: Integrated Pest and Disease Management in <i>rabi</i> crops</p> <p>October 31: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p>
<p>KVK, LUDHIANA (Samrala) (01628-261597)</p>
<p>October 03: Integrated Farming System</p> <p>October 04: Improved cultivation practices of <i>rabi</i> crops</p> <p>October 05: Integrated Pest Management in <i>rabi</i> crops</p> <p>October 06: Improved cultivation practices of <i>rabi</i> crops</p> <p>October 09-13: Efficient use of agricultural machinery and its repair and maintenance</p> <p>October 16-20: Beekeeping- a lucrative subsidiary occupation</p> <p>October 18: Integrated Nutrient Management in <i>rabi</i> crops</p> <p>October 25: Safe use and handling of spraying equipments and farm machinery</p> <p>October 26: Efficient use of crop residue management machinery</p> <p>October 31: Diagnosis of nutrient deficiencies in <i>rabi</i> crops and their remedial measures</p>
<p>KVK, MANSA (01652-280843)</p>
<p>October 03: Efficient utilization of non-conventional energy gadgets</p> <p>October 06: Efficient use of crop residue machinery</p> <p>October 09-17: Protected cultivation of vegetable crops</p> <p>October 10-20: Dairy Farming</p> <p>October 12: Raising of winter season annual flowers</p> <p>October 19: Seed treatment – a preventive measure for management of seed-borne diseases</p> <p>October 20: Care and management of newly born calves and pet animals</p> <p>October 26: Custom hiring of agricultural machinery</p> <p>October 27: Food safety and techniques to check food adulteration</p> <p>October 28: Integrated Pest and Disease Management in <i>rabi</i> crops</p>
<p>KVK, MOGA (Budh Singh wala) (81465-00942)</p>
<p>October 03: Efficient use of crop residue machinery</p> <p>October 04: Cultivation of potato and onion</p> <p>October 06: Efficient use of crop residue machinery</p> <p>October 09: Improved plant protection practices in <i>rabi</i> crops</p> <p>October 10: Organic farming in vegetables</p> <p>October 11: Balanced diet for different age groups</p> <p>October 12: Food safety and techniques to check food adulteration</p> <p>October 13: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p> <p>October 16-20: Seed production techniques in <i>rabi</i> crops</p> <p>October 17: Integrated Farming System</p> <p>October 18: Improved cultivation techniques of winter season fruits and vegetable crops</p> <p>October 19: Processing and packaging of millets</p> <p>October 20: Effect of weather parameters on vegetable production</p> <p>October 23: Management of repeat breeding in dairy animals</p>

<p>October 25: Improved cultivation techniques of <i>rabi</i> crops</p> <p>October 26: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p>
KVK, PATHANKOT (98762-95717)
<p>October 03: Effective use of Information and Communication technologies in agriculture</p> <p>October 04-10: Preparation of bakery and confectionary products</p> <p>October 05: Seed treatment and Integrated Pest Management of <i>rabi</i> crops</p> <p>October 06: Small scale agricultural processing technologies especially for millets</p> <p>October 09-13: Agro Processing Complex (APC) use and maintenance</p> <p>October 10: Improved cultivation practices for <i>rabi</i> crops</p> <p>October 11: Paddy straw management</p> <p>October 12: Management of repeat breeding problem in dairy animals</p> <p>October 13: Integrated Pest Management strategies for sugarcane</p> <p>October 16-20: Value addition of millets</p> <p>October 17: Improved cultivation techniques and Integrated Nutrient Management in <i>rabi</i> crops</p> <p>October 24: Integrated Nutrient Management in <i>rabi</i> crops</p> <p>October 25-31: Protected cultivation of vegetable crops</p>
KVK, PATIALA (Rauni) (94642-10460)
<p>October 05: Seed plot techniques for raising disease free potato seed</p> <p>October 06: Scientific cultivation of <i>rabi</i> crops</p> <p>October 09: Management of paddy straw by using different crop residue machinery and its custom hiring</p> <p>October 10: Improved crop protection practices in <i>rabi</i> crops</p> <p>October 11-17: Versatile usage of <i>phulkari</i> craft</p> <p>October 12: Soil less model for vegetable kitchen gardening</p> <p>October 19: Importance of seed treatment and management of seed borne diseases and insect-pests of <i>rabi</i> crops</p> <p>October 25-31: Entrepreneurship development in bakery and confectionery</p> <p>October 26: Management of anoestrus and repeat breeding in dairy animals</p>
KVK, ROPAR (01881-220460)
<p>October 04: Improved techniques for <i>berseem</i> seed production</p> <p>October 06: Care and management of woolen clothes</p> <p>October 09-13: Raising nursery of vegetable crops</p> <p>October 10: Planning and planting of nutrition garden</p> <p>October 12: Seed plot technique for raising disease free potato seed</p> <p>October 13: Integrated Pest and Disease Management in <i>rabi</i> crops</p> <p>October 16: Integrated Nutrient Management in <i>rabi</i> crops</p> <p>October 17: Improved cultivation techniques of <i>rabi</i> crops</p> <p>October 18: Seed treatment – a preventive measure for seed-borne diseases</p> <p>October 19: Improved cultivation practices for <i>rabi</i> crops</p> <p>October 20: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p> <p>October 25: Establishment of vegetable and fruit nutrition garden</p> <p>October 27: Weight estimation for marketing of agroforestry trees</p>
KVK, SANGRUR (Kheri) (01672-245320)
<p>October 03: Wheat sowing with happy seeder/ super seeder/ PAU smart seeder for paddy residue management</p> <p>October 04: Raising of winter season annual flowers</p> <p>October 05: Seed treatment of <i>rabi</i> crops and proper spraying techniques</p> <p>October 06: Amelioration of nutrient deficiency in wheat and <i>berseem</i></p> <p>October 09-13: Beekeeping, honey processing and marketing</p> <p>October 10: Integrated Pest and Disease Management in <i>rabi</i> crops</p> <p>October 12: Machinery for paddy straw management</p> <p>October 13: Diagnosis and management of nutrient deficiencies in <i>rabi</i> crops</p> <p>October 18: Integrated Pest Management in <i>rabi</i> crops</p>
KVK, SHAHEED BHAGAT SINGH NAGAR (Langroya) (01823-250652)
<p>October 03: Efficient use and management of crop residue machinery</p> <p>October 04: Raising of winter season annual flower</p> <p>October 05-06: Preparation of value added products from milk</p> <p>October 09-13: Preparation of healthy sweets for festive season</p>

October 10: Integrated Pest and Disease Management in *rabi* crops
October 11: Protected cultivation and nursery raising technique of vegetable
October 12: Importance of mineral mixture blocks
October 13: Custom hiring of agricultural machinery
October 16-20: Protected cultivation of vegetable crops
October 25: Diagnosis and management of nutrient deficiencies in *rabi* crops
October 26: Balanced diet for different age groups

KVK , SRI MUKTSAR SAHIB (Goneana) (94630-22203)

October 04: Marketing of *kharif* crops
October 05-13: Beekeeping-a lucrative subsidiary occupation
October 06: Management of repeat breeding in dairy animals
October 12: Cooperative Farming
October 13: Food safety and techniques to check food adulteration
October 19: Identification and management of insect pests and diseases of fruits and vegetables
October 20: Balanced diet for different age groups
October 23: Value addition to pulses and oil seeds
October 25: Improved cultivation techniques for onion production
October 27: Communication skills for transfer of technology

SKILL DEVELOPMENT CENTRE (0161-2401960 Ext 261)

October 03-04: Nursery raising techniques for vegetable crops
October 05: Crop residue management for economic and environmental benefits

Compiled by: Dr Inderpreet Kaur Boparai and Dr Manoj Sharma
