

KVK Training Programmes in May, 2024

A number of training programmes for farmers and farm women will be held during **May, 2024** by Directorate of Extension Education. The details of these programmes are given below. Please contact the respective Training Centre of PAU for more information.

KVK, AMRITSAR (98723-54170)
May 06: Farm yard manure – preparation technique and effect on soil health May 07-08: Processing and packaging of turmeric May 09: Integrated Pest and Disease Management in <i>kharif</i> crops May 13-24: Dairy Farming May 14: Direct seeding of paddy/ <i>basmati</i> - a resource conservation approach May 15: Weed management practices in orchards and vegetables May 16: New production technologies for <i>kharif</i> crops May 17: Identification and management of deficiency symptoms in <i>kharif</i> crops May 20-28: Recycling clothing and macrum to prepare household products May 22: Effects of Green Manuring on soil health May 27: Silage preparation for dairy animals during lean period May 29-30: Value addition to cereals and pulses by making <i>papad</i> and <i>warrian</i>
KVK, BATHINDA (0164-2215619)
May 06: Judicious use of irrigation water May 07: Silage preparation for dairy animals during lean period May 08: Soil, water and nutrient management for sustainable crop production May 09: Seed treatment- a preventive measure for seed-borne diseases May 14: Low cost nutritious recipes using seasonal ingredients May 15: Role of green Manuring to enhance soil health May 17: Importance of Green Manuring May 23-31: Dairy Farming May 24: Direct seeding of paddy/ <i>basmati</i> -a resource conservation technique
KVK, FARIDKOT (01639-253142)
May 02: Recent advances in preservation and nutritious diet May 03: Improved cultivation techniques of <i>kharif</i> crops May 06-08: Seed production of okra (at different stages) May 07: Paddy mechanization and resource conservation technologies in agriculture May 08: Integrated Pest Management in <i>kharif</i> crops with impetus on splat technology in cotton May 09: Garment enrichment through different techniques May 13-17: Goat Farming May 14: Integrated Nutrient Management in field crops May 15: Solar cooker and solar dryer as renewable sources of energy May 16: Safe use and handling of spraying equipments and farm machinery May 17: Cultivation of millets May 20: Soil, water and nutrient management for sustainable crop production May 22: Safe and judicious use of pesticides May 27: Silage preparation for dairy animals during lean period
KVK, FATEHGARH SAHIB (01763-221217)
May 03: Cultivation practices for millets and soybean May 07: Seed treatment for control of seed borne diseases in <i>kharif</i> crops May 09: Micro-irrigation and fertigation practices in orchards May 13: Direct Seeded Rice technology May 14: Solar cooker as a renewable source of energy May 16: Integrated Nutrient Management in Direct Seeded Rice May 20-24: Poultry Farming May 21: Cultivation of paddy straw and milky mushroom May 22: Prevention and control of <i>ecto</i> -parasites in dairy animals May 23: Integrated Pest and Disease Management in <i>kharif</i> crops May 24: Bio-agents and non-chemical methods for disease and pest control May 27-31: Value addition of summer horticultural crops May 28: Soil, water and nutrient management for sustainable crop production

KVK, FEROZEPUR (Mallewal) (01632-279517)

- May 02:** Drip irrigation system in fruit plants
- May 03:** Organic Farming
- May 07:** Marketing of chilly
- May 08-17:** Dairy Farming
- May 09:** New emerging and zoonotic diseases of livestock
- May 13-17:** Value addition to agricultural produce
- May 14:** Improved cultivation techniques of *kharif* crops
- May 15:** Contagious diseases of livestock and preventive measures to prevent their spread
- May 20:** Improved cultivation techniques of *kharif* crops
- May 21:** Integrated Pest and Disease Management in *kharif* crops

KVK, GURDASPUR (01874-220743)

- May 07:** Paddy mechanization including mat type nursery raising
- May 09:** Improved cultivation techniques of *kharif* crops
- May 13:** Use of laser land leveller
- May 14:** Irrigation scheduling in orchards during summer season
- May 15:** Direct seeding of rice/*basmati*-a resource conservation approach
- May 16:** Management of nematodes in vegetables crops
- May 17:** Integrated Nutrient Management through green manuring and Farm yard manure in *kharif* crops
- May 22:** Identification and management of nutrient deficiencies in *kharif* crops
- May 27:** Improved production and protection practices in *kharif* crops
- May 28:** Management of dairy animals during summer season
- May 29:** Good Agricultural Practices in orchards (mulching, drip irrigation etc.)

KVK, HOSHIARPUR (Bahawal) (98157-51900)

- May 06:** Value addition to pulses and oilseeds
- May 07:** Silage making
- May 08:** Cultivation practices for millet crops
- May 09-16:** Scope of agro-processing complexes for enhancing farmers' income by value addition of produce
- May 13-24:** Dairy Farming
- May 27-31:** Embellishment of clothes using modern and traditional techniques
- May 14:** Improved cultivation techniques of *kharif* crops
- May 16:** Seed treatment: a preventive measure for insect pest management
- May 21:** Use of solar energy gadgets
- May 24:** Balanced diet for different age groups
- May 27-31:** Preservation of seasonal summer fruits and vegetables
- May 28:** Integrated Farming System

KVK, JALANDHAR (Nurmahal) (01826-292053)

- May 02:** Methods of collecting soil and water samples and interpretation of results
- May 03:** Improved cultivation techniques of *kharif* crops
- May 08:** Judicious use of water in *kharif* crops
- May 09:** Use of solar cooker and solar dryer as renewable sources of energy
- May 13-21:** Pig Farming
- May 16:** Cultivation of rice/*basmati* through Direct Seeded Rice technique
- May 17:** Improved cultivation techniques of *kharif* crops
- May 20-24:** Repair and maintenance of agricultural machinery
- May 21:** Post-harvest management/ handling of summer vegetables
- May 22:** Summer management and feeding of dairy animals
- May 23:** Integrated Nutrient Management in *kharif* crops
- May 24:** Tips for custom hiring of agricultural machinery as subsidiary occupation
- May 28:** Seed treatment in *kharif* crops

KVK, KAPURTHALA (01822-233056)

- May 06:** Direct seeding of paddy/*basmati*- a resource conservation approach
- May 07:** Rain water harvesting and irrigation techniques for saving water
- May 08:** Use of solar cooker and solar dryer as renewable sources of energy
- May 09:** Methods of collecting soil and water samples and interpretation of results

<p>May 14: Integrated Pest and Disease Management in <i>kharif</i> crops</p> <p>May 15: Bio-agents and non-chemical methods for disease and pest control in vegetables</p> <p>May 16: Cultivation of millets</p> <p>May 17: Judicious use of water and fertilizers in <i>kharif</i> crops</p>
KVK, LUDHIANA (Samrala) (01628-261597)
<p>May 02: Solar cooker and solar dryer as renewable sources of energy</p> <p>May 03: Seed treatment in paddy and <i>basmati</i></p> <p>May 06: Crop regulation in guava</p> <p>May 07: Balanced diet for different age groups</p> <p>May 08: Organic Farming</p> <p>May 09: Water conservation techniques including rain water harvesting</p> <p>May 13-17: Preparation of eco-friendly cleaning agents</p> <p>May 20: Improved cultivation practices of <i>kharif</i> crops</p> <p>May 21: Integrated Pest Management in <i>kharif</i> crops</p> <p>May 23: Custom hiring of agricultural machinery</p> <p>May 24: Soil, water and nutrient management for sustainable crop production</p>
KVK, MANSA (01652-280843)
<p>May 02: Direct Seeding of paddy/<i>basmati</i>- a resource conservation approach</p> <p>May 03: Solar cooker and solar dryer as renewable sources of energy</p> <p>May 06: Organic Farming in vegetables</p> <p>May 07: Integrated Pest and Disease Management in <i>kharif</i> crops</p> <p>May 08: Soil, water and nutrient management for sustainable crop production</p> <p>May 09: Judicious use of irrigation water in <i>kharif</i> crops</p> <p>May 13: Pesticide residue free <i>basmati</i> cultivation</p> <p>May 14: Nutritious recipes for young children and pregnant/lactating women</p> <p>May 16: Integrated Nutrient Management in field crops</p> <p>May 17: Summer management and feeding of dairy animals</p> <p>May 27-31: Poultry Farming</p>
KVK, MOGA (Budh Singh wala) (81465-00942)
<p>May 06-17: Dairy Farming</p> <p>May 07: Improved cultivation techniques of <i>kharif</i> crops</p> <p>May 08: Seed treatment– a preventive measure for seed-borne diseases</p> <p>May 09: Use of solar energy gadgets</p> <p>May 13-17: Embellishment of clothes using modern and traditional techniques</p> <p>May 15: Improved cultivation techniques of <i>kharif</i> crops</p> <p>May 17: Efficient utilization of non-conventional energy gadgets</p> <p>May 22: Direct seeded paddy/<i>basmati</i></p> <p>May 23: Value addition to pulses</p> <p>May 24: Care and management of newly born calves and pet animals</p> <p>May 28: Improvement in soil health through organic manures</p> <p>May 30: Summer management and feeding of dairy animals</p>
KVK, PATHANKOT (98762-95717)
<p>May 02: Preparation of mat-type nursery of paddy</p> <p>May 03: Methods of collecting soil and water samples and interpretation of results</p> <p>May 06: Different types of millets and their benefits</p> <p>May 09: Improved cultivation techniques and Integrated nutrient management in <i>kharif</i> crops</p> <p>May 13: Laser leveller -efficient water saving technique</p> <p>May 14: Prevention and control of <i>ecto</i>-parasites (ticks) in dairy animals</p> <p>May 15: Improved cultivation techniques of <i>kharif</i> crops</p> <p>May 16: Improved varieties for <i>kharif</i> crops</p> <p>May 20-24: Beekeeping</p> <p>May 27-31: Seed production of <i>kharif</i> crops</p>
KVK, PATIALA (Rauni) (94642-10460)
<p>May 02: Organic Farming</p> <p>May 03: Seed treatment of paddy and <i>basmati</i> against seed borne diseases</p>

May 07: Hybrid seed production of chilli
May 08: Improved cultivation practices of *kharif* crops
May 09: Processing of tomato
May 13: Nutrient management in fruit plants and vegetable crops
May 14: Personal hygiene and nutritional practices for adolescent girls
May 15-21: Processing of horticultural produce
May 16: Direct seeding of paddy/*basmati*-a resource conservation approach
May 22: Summer management of honey bees
May 23-31: Entrepreneurship development programme in Dairy Farming
May 27: Soil health management through green manuring, vermicompost, biofertilizers and FYM use
May 30: Recharging of underground water and judicious use of poor quality water for irrigation in crops

KVK, ROPAR (01881-220460)

May 02: Methods of collecting soil and water samples and interpretation of results
May 03: Preventive methods of post-harvest losses of vegetables
May 06: Processing of milk at domestic level
May 07: Integrated Nutrient Management in *kharif* crops
May 08: Integrated Pest and Disease Management in *kharif* crops
May 09: Cultivation of *kharif* crops in *Poplar* and *Eucalyptus*
May 13-23: Dairy Farming
May 14: Feeding and management of poultry birds
May 15: Judicious use of water in *kharif* crops
May 16-22: Preparation of millet based bakery and confectionary products followed by their packaging
May 24: Integrated Nutrient Management in *kharif* crops
May 27: Improved cultivation techniques of *kharif* crops
May 28: Seed treatment in *kharif* crops

KVK, SANGRUR (Kheri) (01672-245320)

May 02: Organic Farming
May 03: Seed treatment of paddy and *basmati* against seed borne diseases
May 06: Organic Farming of vegetables
May 07: Seed production of summer vegetables
May 08: Improved cultivation practices of *kharif* crops
May 09: Raising of mat type nursery for mechanical transplanting of paddy
May 13: Machinery for *kharif* crops and establishment of custom hiring centres of agricultural machinery
May 14: Improved production practices for *kharif* crops and cultivation of Direct Seeded Rice
May 15: Personal hygiene and nutritional practices for adolescent girls
May 16: Water conservation techniques including Direct Seeded Rice and Rain Water Harvesting
May 17: Direct seeding of paddy/ *basmati*-a resource conservation technique
May 20: Summer management and feeding of dairy animals
May 22: Summer management of honey bees

KVK, SHAHEED BHAGAT SINGH NAGAR (Langroya) (01823-250652)

May 02: Solar cooker and solar dryer as renewable sources of energy
May 03: Seed treatment – a preventive measure for seed-borne diseases
May 06-13: Value addition of summer horticultural crops and *wadi* making
May 07: Water conservation techniques
May 08: Post-harvest management/ handling of summer vegetables
May 09: Summer management and feeding of dairy animals
May 13-27: Dairy Farming
May 14: Cultivation practices for millet crops
May 15: Improved cultivation techniques of *kharif* crops
May 16: Micro irrigation, fertigation and weed management practices in orchard
May 28: Integrated Farming System

KVK, SRI MUKTSAR SAHIB (Goneana) (94630-22203)

May 06: Organic Farming
May 07: Seed treatment –a preventive measure for seed borne diseases
May 08: Solar cooker and solar dryer as renewable sources of energy

May 13-17: Preservation of seasonal summer fruits and vegetables

May 14-22: Dairy Farming

May 16: Improved cultivation techniques of *kharif* crops

May 17: Integrated Pest Management in *kharif* crops

May 23: Direct seeding of paddy/*basmati*-a resource conservation approach

May 27: Formulation of balanced feed using domestic ingredients

May 28: Nutritious recipes for young children and pregnant/lactating women

May 29: Silage making for dairy animals during lean period

May 30: Personal hygiene and nutrition for adolescent girls

SKILL DEVELOPMENT CENTRE (0161-2401960 Ext 261)

May 02: Cultivation of Direct Seeded Rice, raising mat type nursery and mechanical transplanting

May 14-16: Cultivation of summer/tropical mushroom

May 20-24: Preparation of natural vinegar, low-alcoholic naturally carbonated beverages and lacto fermented pickles

Compiled by: Dr Inderpreet Kaur Boparai and Dr Manoj Sharma
