Objectives

The Government of Punjab and the Indian Council of Agricultural Research are continuously enhancing the financial aid to Punjab Agricultural University but the finances received from these agencies and other funding agencies are not sufficient to conduct research to meet the challenges that have emerged in the post Green Revolution era.

We have already achieved very high level or productivity but we need more intensive research and application of cutting edge technologies. Under these circumstances, the University should make earnest efforts' to raise additional funds for this purpose. To meet these objectives an endowment fund is being created for which money will be received from faculty/Alumni of the University/Philanthropists/Indian Companies and other agencies/ institutions/ individuals as are approved by the Vice Chancellor in the shape of donations/ contributions etc. The donations/contributions so received will l form part of a Corpus Fund which will be invested and the income received as interest will be utilized on Research, Teaching and Extension education.
